The Fabric of Water
by QuArtz
a division of Vernon Silver Star Quilters

One of our members collected fabric during a trip around the world. The four selections (shown below) were presented to our group along with a challenge. Using the theme of 'water' as a starting point, each artist was encouraged to use all four fabrics to create a fibre art piece. The results are as diverse as each member's imagination.

WATER
Shirley Weishuhn
Vernon, British Columbia
title: WATER
medium/technique: commercial fabrics, raw wool and threads, ink pens and free motion quilting
artist's statement: Water is my element. It evokes many varied emotions in me - peace, excitement, fear, respect and a feeling of being at home. I am drawn to it and sometimes feel a yearning when I have been away too long.
